

We are a fast-growing Austrian software company with an international presence and develop innovative products for email marketing. With more than eleven years of experience in the online industry, our company has become one of the world's leading providers of email marketing solutions and services. More than 800 international companies and agencies (among them eBay, Vodafone, Siemens, Canon, Burton, Zalando-Lounge, etc.), send more than 2.5 billion emails each month via our sending platforms.

**Join us for your next career move!**

## Senior Software Engineer m/f

### Are you looking for technical challenges?

Our software is a performance-optimized, highly scalable email marketing platform. In your position as a Senior Software Engineer, you face the following topics as part of your daily work:

- Development of highly scalable web applications and web services
- Processing and administration of terabytes of data
- Service-oriented programming in Scala and Java
- Distributed systems, caching, replication, fault tolerance
- Optimization, performance engineering

### Do you have know-how and experience?

- You have several years of programming experience, and
- you consider yourself an expert in at least one area of software engineering.
- You have experience in processing large amounts of data.
- Skills in Java/Scala and/or Unix/Linux are an advantage, but no prerequisite.

### Do you work proactively?

- You take on responsibility in a team.
- Your tasks are completed when your solutions are operational and have been documented and tested.
- You prefer continuous product development over project work.

### We are a committed and international team!

- We are noted for our combined expertise and our passion for technology.
- We offer exciting challenges in a pleasant working environment.
- We appreciate and pay well for your commitment, as well as your good and precise work.
- We are a growing company offering a high level of job security.
- With us, you can develop your professional career and make a difference.

We offer an annual gross salary from EUR 49,000 to EUR 63,000, depending on your professional qualification and experience.
