

Job Title - **Web Designer**

Location - **emarsys UK, London**

Duration - **Full Time**

In the past year emarsys UK has grown exponentially and is a leading Email Platform and Service Provider in the UK with hundreds of international clients and cutting-edge technology. Currently emarsys has offices in London, Vienna, Munich, Berlin, Paris, Zurich Hong Kong and Beijing. As part of its rapid expansion programme emarsys is now looking for additional talent to drive its growth forward. As a Web Designer with emarsys UK you will work within a young, dynamic Technical Operations team managing a variety of emarsys UK clients.

More than 900 companies worldwide are among our satisfied customers and send a combined volume of more than 3 billion emails each month using our email platform. We also manage the work for eBay globally, Vodafone, Coca Cola, Canon, Motorola, Honda, Burton, Playboy UK, Zurich Insurance, Deloitte and many more.

Responsibilities:

- Create custom templates for client email campaigns.
- Customize and personalise client HTML to suit email campaign functionality.
- Troubleshoot design related issues for existing templates and email campaigns.
- Understand client design requirements through direct meetings, conference calls and email communication.

Requirements:

The ideal candidate will have at least 2+ years experience as a web designer/developer.

The right candidate will have in-depth knowledge on HTML, CSS, XHTML, JavaScript, and PHP.

The right candidate will have a strong background in creating CMS templates and experience with email marketing design and layouts.

Desirable: Graphic design, photo editing
